1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William D. Miller on 14 June 2004.

The application has been amended as follows:

In claim 1, line 7, the language "image light display unit" has been changed to read --image display unit--.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest an illumination display device comprising a first light source mounted to a first portion on a planar mount surface of a mount and directing light along a first axis, a reflective image display unit mounted to a second position on the mount surface different from the first position with an optical axis parallel to the first axis and a reflective polarizing film disposed to direct light from the first light source to the reflective image display unit, as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
